- Level ground underneath modular and build carport for school vehicles
- Convert existing pole barn into weight room/locker room/ community fitness center
- Tuck point exterior masonry on entire district
- Paving in parking lot
- Abate Asbestos
- New security camera system with remote access

Supplementary Project:

- Ingalls USD 477 will submit a grant to the National Foundation for Governor's Fitness Councils. The grant is the DON'T QUIT! Fitness Center! Project and will be used to upgrade the existing weight equipment and provide equipment for the community fitness center. The resources for the grant will fund approximately \$100,000.00 of equipment for our students and patrons to use in an effort to improve the quality of life for all constituents. We will have elliptical machines, stationary bikes, treadmills, universal weight machines, dumbbells, and free weight power racks. There will also be open areas for any fitness activity a patron or student wishes to pursue.

If any patron has questions about the bond issue please feel free to call a Board Member or Mr. Rockhold.
